DETAILED ACTION

The response filed June 24, 2002 (Paper No. 4) has been entered. Claim 65 has been amended. Claims 76-79 have been cancelled.

Accordingly, Claims 65-75 remain pending in the instant application.

The following rejections are reiterated or newly applied and constitute the complete set of rejections being applied to the instant application. Rejections and objections not reiterated from the previous office action are hereby withdrawn.

At page 3, paragraph 2 of the response, Applicants indicate that they have submitted **Exhibit B** with the response. However, the Examiner did not receive anything marked as **Exhibit B**.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration has reviewed and understands the contents of the specification, including the claims, as amended by any amendment specifically referred to in the oath or declaration.

A preliminary amendment was filed August 22, 2000. The declaration does not specifically refer to the amendment. A newly executed declaration is required.

At page 3, paragraph 3 of the response, Applicants state that they intend to file a new declaration.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 65-75 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1-10 of U.S. Patent No. 6,106,827 (hereinafter referred to as "the patent"). Although the conflicting claims are not identical, they are not patentably distinct from each other because, since Claims 65-74 are broader than Claims 1-10 of the patent in that they now broadly recite any promoter (or a constitutive promoter or an astrocyte-specific promoter) for regulating expression of the selectable marker gene rather than being limited to the GFAP or RSV promoter, the claims of the application encompass the invention of the patent. It is noted that the GFAP promoter, as recited in Claims 1-10 of the patent, is an astrocyte-specific promoter, as recited in Claim 77 of the instant application. Thus, Claims 65-74 read on the patented invention. With regard to Claim 75, it would have been obvious to use the TK promoter instead of the GFAP or RSV promoter to drive expression of the selectable marker gene, particularly given that the specification teaches the use of the TK promoter linked to the neomycin resistance gene in the plasmid pMCINeoPolyA (p. 12, line 14). Thus, Claim 75 of the instant application would have been obvious over Claim 1 of the patent.

Art Unit: 1632

At page 4, paragraph 2 of the response, Applicants have indicated that they intend to file a terminal disclaimer.

Conclusion

No claims are allowable.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
